<b>Secondary School Education</b>	2017
<i>Green Fields e-Techno School</i>	<i>9.3 cgpa</i>

## TECHNICAL SKILLS

**Java** : Core Java, collections, Hibernate, JDBC, Servlets, Spring with good knowledge of Java programming.

**Web Development** : Proficient in HTML, CSS, JavaScript

**Database** : Oracle SQL

**Developer Tools** : VS Code, Eclipse

## PROJECTS

### Women's Palour Management System | *HTML, CSS, Javascript, SQL, Java*

- Collaborated in a team to develop a Women's Palour Management System aimed at streamlining operations such as appointment scheduling, staff management, and inventory control.
- Role: Took responsibility for Database Design, front-end development, and contributed to database management and final testing.
- Worked on designing a user-friendly interface using HTML, CSS, and JavaScript to ensure ease of use for both customers and salon staff.
- Contributed to backend development using Java to implement business logic, data processing, and server-side interactions.
- Collaborated on the setup of an SQL-based database for managing customer appointments, employee schedules, and inventory records.
- Collaborated with the team to create custom reports, such as staff performance metrics, customer appointment history, and inventory usage.
- Ensured efficient and scalable database queries while working with team members to optimize overall system performance and minimize load times.

### Web Development Projects (Website Cloning) | *HTML, CSS, Javascript*

- Cloned multiple websites to strengthen front-end development skills, focusing on HTML, CSS, JavaScript, and responsive web design.
- Replicated core features including navigation, layout, and user interaction to practice UI/UX principles and ensure cross-browser compatibility.
- Cloned pages : Netflix, Airbnb, Knight Bite, Ammas Pastries
